#### WELCOME, HUMAN!

In Q4 2015, the Outdoor Advertising Association of America (OAAA) and its members conducted an experiment to demonstrate the role that out of home (OOH) advertising plays in driving digital engagement.

# The ad industry has a really big problem.

Digital advertising. It's really creative, really lucrative, and it's really growing. But it's also a really big problem for all of us working in media. Non-viewable ads, non-human bot traffic, and other forms of digital fraud cost your clients over \$7 billion each year.

# LUCKILY, OOH CAN HELP SOLVE DIGITAL'S REALITY PROBLEM

By using real ads and real traffic - out of home ads - we got you to stop, think and... Feel. The. Real.

**OOH** drives more mobile searches for online information than any other medium.5

 $011010\overline{0}$ 

92% of recent Cannes **Titanium & Effectiveness** Award winning campaigns used OOH.6

OOH is nearly 3x as online search activity.7

### **Welcome** to the real world.

We conducted an experiment to arm 21st century marketers like you with a series of best practices for turning OOH into a powerful force multiplier in driving digital engagement. The Feel The Real campaign surrounded advertising and media agencies, maybe yours, in 20 markets with more than 1,400 00H ads featuring 280 unique, often personalized, executions that directed people like you to FeelTheReal.org.

# **Reality. Bytes.**

Once on FeelTheReal.org, you didn't just learn about digital's reality problem – you demonstrated through your actions how OOH advertising drives digital engagement and makes it real. Social media feeds blew up and advertising and media people shared, talked, and posted pictures of

themselves in front of our *real* OOH units.

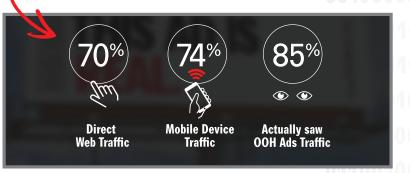

#### 

## Bringing people back to reality.

The campaign was effective at driving B2B digital engagement with over 30,000 unique visitors to the site in six weeks, 40% of whom were media and advertising professionals.
